DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Claim 5 is deemed to be directed to a non-obvious improvement over the invention patented in Lee (U.S. Patent Number 5823724).

The prior art of record discloses the track having a lot, the track being attached to the interior structure; at least one bracket secured to the track, each bracket having a cam on an inner end and a receptacle on the outer end, the cam being received in the slot of the track in a range of positions and being selectively locked to the track at a selected position on the track; and wherein the track is open on one end and further comprising an end cap secured to the track over the one end.

However, the prior art of record does not disclose the end cap having a hinged panel, the hinged panel having an open position and a closed position, wherein the bracket may be assembled to the track when the hinged panel is in the open position.

The primary reason for allowance of claim 5 is: "the track having the combination of having the slot, the interior structure, at least one bracket, a receptacle on the outer end, the cam and an end cap with the end cap having a hinged panel, wherein the hinged panel having an open position and a closed position, wherein the bracket may be assembled to the track when the hinged panel is in the open position.

Art Unit: 3782

Therefore, the track in combination of the limitations of the slot, the interior structure, at least one bracket, a receptacle on the outer end, the cam and an end cap with the end cap having a hinged panel, wherein the hinge panel having an open position and a closed position, wherein the bracket may be assembled to the track when the hinged panel is in the open position as set forth in claim 5 defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
